

FutureChem® SSIPA

Product Stewardship Summary

Chemical Identification

- Chemical Abstract Service (CAS) Number: 6362-79-4
- Chemical Name: 5-Sodiosulfoisophthalic Acid

Description of FutureChem® SSIPA

FutureChem® SSIPA is a white crystalline solid that can be used as a monomer. FutureChem® SSIPA is packaged by FutureFuel Chemical Company in drums or bulk bags.

Properties of FutureChem® SSIPA

- White/Off-White Solid
- Melting Point >300°C
- Essentially Odorless

Safety & Health Information of FutureChem® SSIPA

Normal safe handling procedures should be used in the workplace. Workers should follow recommendations of Safety Data Sheets (SDS). Consumers are at little risk of being exposed to FutureChem® SSIPA under normal conditions of use. The following describes health effects from exposure to FutureChem® SSIPA.

- Skin Contact: Can cause skin irritation
- Eye Contact: Can cause eye burns
- Inhalation: Can cause irritation of the respiratory tract
- Ingestion: Swallowing large amounts can cause injury

FutureChem® SSIPA is of low toxicity to aquatic organisms and is not expected to bioaccumulate.
